

USR ID LEASH Getting Started Guide

support@usrid.net

The **USR ID LEASH client app** will automatically lock your computer when you walk away and unlock it when you approach with a mobile phone running the companion **USR ID token mobile app**.

You can set it up in three steps:

1. Download the **USR ID token mobile app** to your mobile phone
2. Download and configure the **USR ID LEASH client app** to your computer
3. Pair your mobile phone and computer

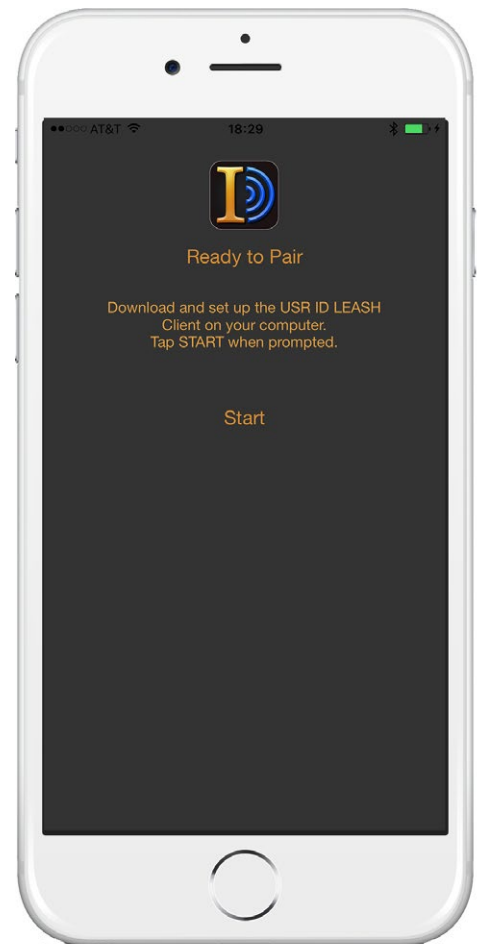

Before you start, make sure your mobile phone's Bluetooth is turned on.

STEP 1: Download the USR ID token mobile app to your phone

- Download the **USR ID token mobile app** from the App Store, launch it, and follow the prompts, allowing the permissions to the app requests.
- Enter an email address to receive a link to the **USR ID LEASH client app** for your computer and tap Send and continue to follow the setup screens.

When you see the Ready to Pair screen at right, you are ready to pair the USR ID token mobile app with the USR ID LEASH app on your computer.

Go to Step 2. Your phone will wait until the computer is ready.

STEP 2: Set up the USR ID LEASH client app. (Mac OS)

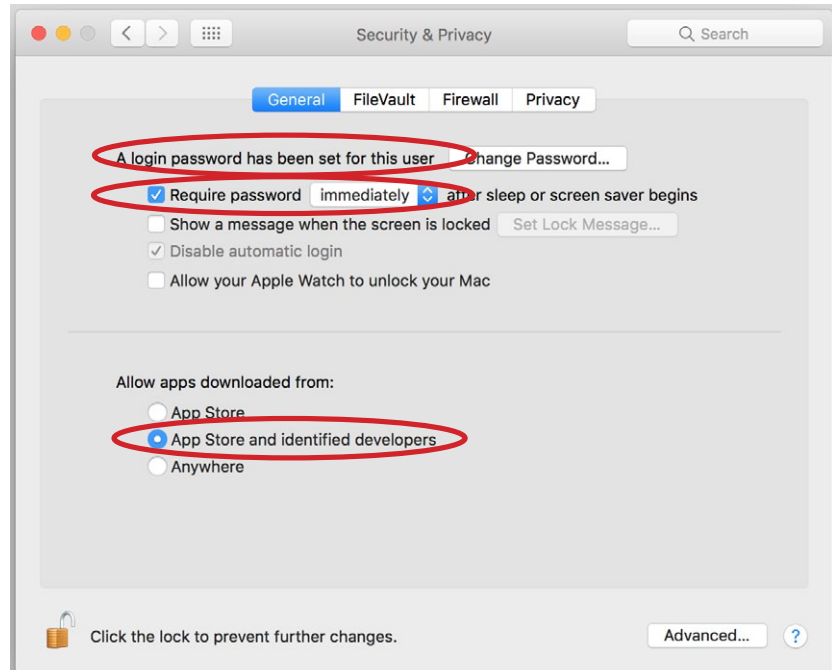

(Windows users skip to the next page)

Before downloading and running the **USR ID LEASH client app**, make sure your Mac's Bluetooth is ON and screen saver options are set correctly:

- Go to System Preferences from the Apple menu and choose Security & Privacy

- Click the Lock icon. Type in your Mac password to make changes.
- Make sure a login password has been set
- Check "Require password" and select "immediately" for "after sleep or screen saver begins"
- Choose "App Store and identified developers"

Close the window when finished

In System Preferences > Energy Saver,

UNCHECK the option for 'Power Nap/Wake for Network Access'

Use the link sent to download the **USR ID LEASH** client app.

- Open the .dmg and drag-and-drop to your Applications folder

STEP 2: Set up the USR ID LEASH client app. (Windows)

Before downloading and running the **USR ID LEASH client app**, make sure your computer's Bluetooth is ON.

Set up Windows Hello to allow a PIN to unlock your computer.

- Settings > Accounts > Sign-in options

A fast and secure way to sign in to Windows, make payments, and connect to apps and services.

Password

Change your account password

Install the app.

- Double-Click the "LeashPackage....appxbundle" file to start the installation.
- Allow the access the installer requests (e.g. Camera, etc.)
- Launch the app to create your USR ID account and pair your phone and computer.

Launch the USR ID LEASH app.

Follow any instructions to allow USR ID Leash to interact with your computer (varies by OS version).

**If you already have an account at USR ID, enter it.
Otherwise, create an account at USR ID.**

After creating your account, you will receive a text with a confirmation code to the phone number used to create your account.

- Enter that code in the box shown

- On the next screen, choose a subscription plan

- Then, enter your Computer Login Password and click OK.

The Register screen features the USR ID LEASH logo at the top. Below it, the word "Register" is displayed in orange. The form contains several input fields: "First Name", "Last Name", "Email" (with an envelope icon), "Password" (with a key icon), "Confirm Password" (with a key icon), and "Phone Number". A blue "Register" button is positioned below the fields. At the bottom, there is a link that says "Already have an account? Login now."

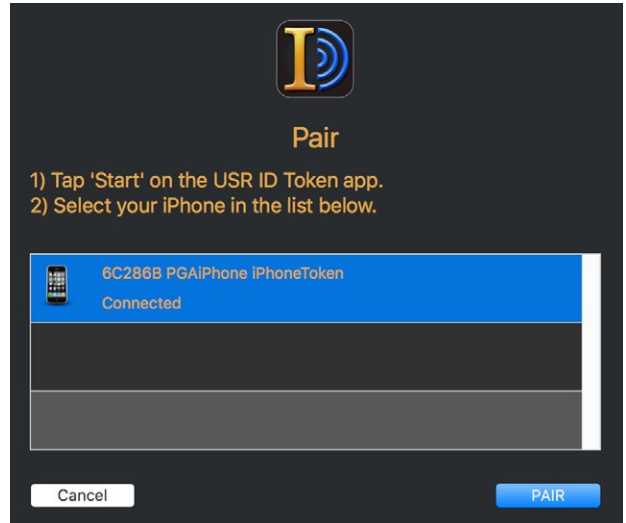

The Confirm Your Phone screen displays the USR ID Leash logo and the title "Confirm Your Phone" in orange. Below the title, it says "Enter 6 digit code sent to your phone". A text input field contains the code "123456". At the bottom, there are two buttons: "Cancel" and "OK".

The Password screen shows the USR ID LEASH logo and the title "Password" in orange. Below the title, it says "Please enter the password you use to login to your Mac." A text input field is labeled "Password". At the bottom, there are two buttons: "Cancel" and "OK".

STEP 3: Pair your computer to your mobile phone

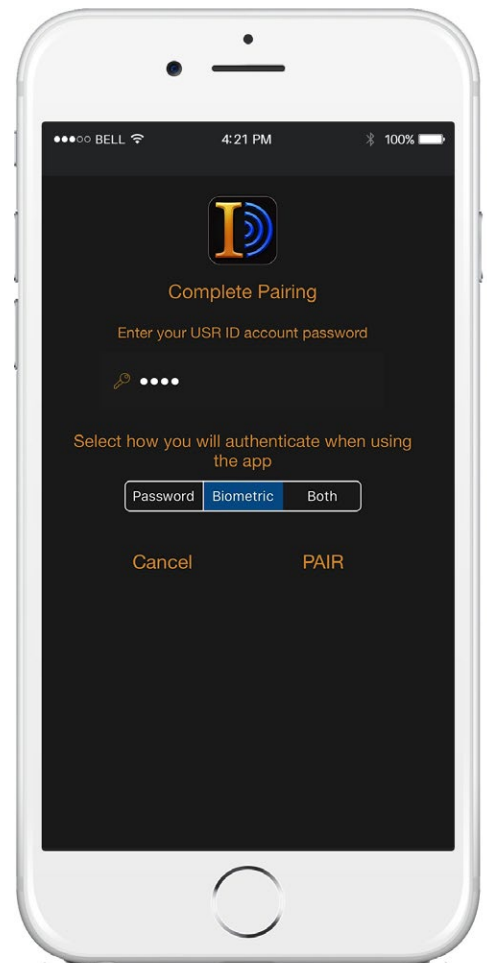

Choose the phone you would like to pair with and click PAIR.

Confirm pairing on mobile phone.

- Type in your **USR ID** account password
- Select how you will authenticate when using the app
(Biometric is recommended)

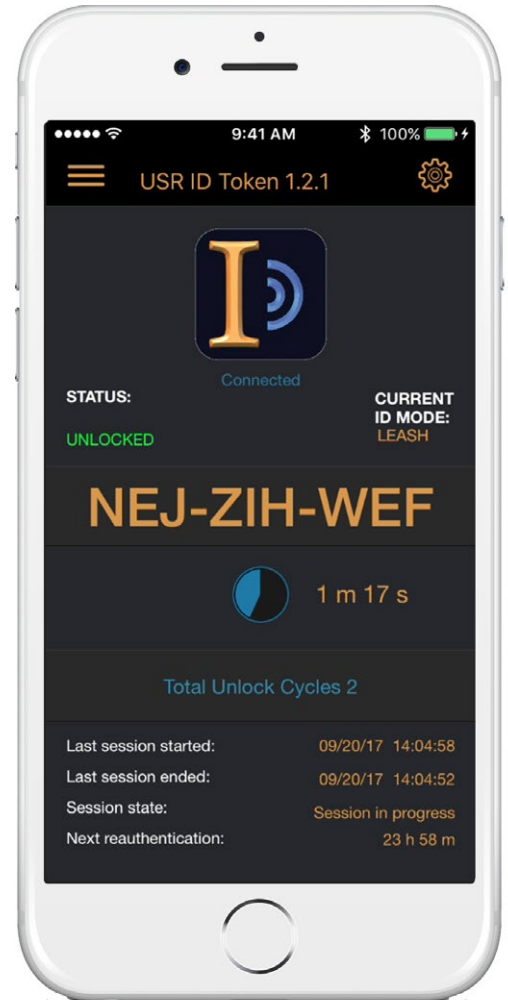

Then tap PAIR

That's it – LEASH is ready to go!

These screens show the mobile phone and token as a correctly matched pair.
